EDUCATION

Middlebury College, Middlebury, Vermont

September 2021 – May 2025

- 3.89 GPA | Summa Cum Laude | Chang Chavkin 1st Generation Scholar
- **Major:** Environmental Geography | Minor: Spanish
- **Relevant Coursework:** Remote Sensing in Geoscience, Human Geography of Natural Hazards, Cartography, Open GIScience, Human Geography with GIS, Computing for the Sciences
- **Technical Skills:** Geographic Information Systems (GIS), Cartography, Adobe Illustrator Design, Environmental Data Analysis, Technical Report Writing, Programming in Python, R, and Arcade

Universidad Austral de Chile, Valdivia, Chile

March 2024 – July 2024

- Cultural immersion program with coursework in ecology, rural geography, and Spanish language

PROJECTS/RESEARCH

Landslide Sensitivity Mapping in Vermont: Using Past Records and Natural Parameters to Predict 2023 Flood-Induced Landslides

Remote Sensing in Geoscience, *Professor Will Amidon*

- Created a high-resolution landslide sensitivity model using various geographic data, including high-resolution LiDAR in ArcGIS Pro, to test the state protocol's viability for predicting landslides

Mapping COVID-19 Amenity Migration to Explore Rural Gentrification and Local Displacement in the Berkshires

Independent Senior Geography Research, *Professor Peter Nelson*

- Manipulated complex data from mobile phone locations in RStudio, with cartographic design in QGIS and Illustrator to expose novel migration patterns and highlight correlated rural gentrification and local displacement

PROFESSIONAL EXPERIENCE

Dangermond Fellow - Enterprise GIS

June 2025 – June 2026

National Audubon Society, Remote, Portland, Maine

- Develop and manage complex GIS projects advancing sustainable, hemisphere-wide conservation initiatives
- Conduct and automate spatial analyses using diverse geospatial datasets in ArcGIS Pro and Python Notebooks
- Create interactive web applications, dashboards, and print layouts using the full ESRI suite to communicate spatial analyses, including dynamic risk and decision-support tools, to technical and nontechnical stakeholders
- Serve as ArcGIS Online administrator for 600+ users, providing technical support, training, and project consultation

Teaching Assistant for Human Geography with GIS

September 2024 – April 2025

Middlebury College, Middlebury, Vermont

- Provided individual support to students, explaining complex geographic and spatial analysis concepts
- Assisted in teaching course content, including GIS methodologies and cartographic principles
- Guided students in troubleshooting GIS software issues, ensuring timely completion of assignments and projects

Conservation Project Intern

March 2024 – July 2024

Corporación Forestal Nacional (CONAF), Valdivia, Chile

- Supported the lead biologist in fieldwork such as native bird census taking and camera trap installations
- Engaged in local participatory conservation meetings with stakeholders to reach zoning plan agreements
- Conducted research through literature review and spatial analysis with QGIS, developing a 30-page methodological proposal for monitoring endangered southern river otters using camera traps

Ecological Research Assistant

March 2024 – July 2024

Senda Darwin Biological Station, Chiloé, Chile

- Conducted fieldwork collecting environmental samples in a long-term ecological study to investigate leaf litter composition and temporal accumulation patterns, resulting in a 20-page scientific report
- Presented research conclusions to over 50 high school students, inspiring environmental careers and awareness

LANGUAGE SKILLS / CERTIFICATIONS

- Fluency in Spanish (written/oral), Public Speaking, Peer Education, and Facilitation
- Certifications: National Ski Patrol Outdoor Emergency Care Certification, AAPPL Global Seal of Biliteracy
